Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-29 are presented for examination.

Election/Restrictions

2. Restriction to one of the following is required under 35 U.S.C. 121:
 - I. Claims 1-7 and 20-26 are drawn to a method and a computer system for disseminating information in a distributed network, classified in class 709, subclass 206.
 - II. Claims 8-17 are drawn to a method for generating a partial view of a network, classified in class 709, subclass 223.
 - III. Claims 18-19 are drawn to a method for recovering an isolated node in a network environment, classified in class 709, subclass 232.
 - IV. Claims 27-29 are drawn to a computer readable medium having stored data structure representing a subscription request for requesting membership, classified in class 709, subclass 225.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, II, III, and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as a method and a computer system for disseminating information in a distributed network, lacking the particulars of Inventions II, III and IV. Invention II allows for a method for generating a partial view of a network,

lacking the particulars of Invention I, III and IV. Invention III allows for a method for recovering an isolated node in a network environment, lacking the particulars of Invention I, II and IV. Invention IV allows for a computer readable medium having stored data structure representing a subscription request for requesting membership, lacking the particulars of Invention I, II and III See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Timothy Scull on January 11, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made because Applicant's representative did not respond to message.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever

is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramsey Refai whose telephone number is (571) 272-3975. The examiner can normally be reached on M-F 8:30 - 5:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Follansbee can be reached on (571) 272-3964. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
